Profile

A qualified Diesel fuel injection technician/ Marine Mechanic, with 7 years experience. I have specialised in mechanical Diesel fuel pumps, injectors and the maintenance of all fuel systems as well as governing systems of main and auxiliary engines.

My strong work ethic defines me and I believe in applying myself to the fullest on every project I face.

Approachable and friendly, my aptitude for learning, endeavour for challenges and excellent problem solving skills, has always placed me in good stead.

Objective

To utilise my already developed engineering skills, whilst striving to acquire new skills which will pave the way for a career allowing me to gradually to take on more responsibility within the yachting industry.

Work Experience

Marine Diesel Mechanic - Briegel Diesel

March 2016 – Feb 2023

We attend to all big Fishing trawlers, such as: Sea Harvest, I&J , Viking Fishing and Amawandla Hake.
